

RUNNER

Hackathon FECSS – Call for Experts

Fight Environmental Crimes and Support Sustainability
through drones and air IoT (drone-borne)

From the 22 to the 25 of June the **EU-funded project RUNNER**, "dRoneUnit Network agaiNst Environmental cRimes ", financed by the European Anti-Fraud Office and awarded to SAFE Foundation, is launching an online **hackathon** in collaboration with the Local Police in Turin. The event aims at **boosting effective investigations** in the field of environmental crimes and **illicit waste trafficking** through the **development of innovative technologies** – examples include drone sensors and computer vision algorithms for the prompt and accurate detection and analysis of illegal landfills, amongst others. In this framework, the management **is looking for members to compose the evaluation board and to support as tutors** the participants during the competition. If you are interested in this opportunity, send an email to runner@safe-europe.eu stating whether you would like to join as a member of the evaluation board or as a tutor, and your expertise.

Key dates

- Application Deadline: 15 June
- Duration: 22-23 June
- Presentation/Pitch and Winner announcement: 25 June
